OUR PORTFOLIO

Danesita

Recipes of love.

Danesita

In 1978 we decided to fulfill a dream: to bring to the house of the consumers the best pastry a mouth can taste. Everyday.

Today, after more than 30 years, we know that was the beginning of a great love affair.

Today, this love joins new technologies and techniques with the traditional way of making the best pastries. After being blended with dedication and filled with the finest ingredients, results in a quality product, honest and deeply tasteful.

This recipe has kept us in love with what we do and we believe that it'll make you fall in love too.

From first to last bite.

Classic Butter Cookies

The classic of the classics.
The gift of the gifts. The butter cookie

Special Origins

The outrageously unique
BUTTER COOKIES

The Origins of Indulgence

What makes these butter cookies so special? It's not only the love we have put in their preparation and baking, but also the exquisite ingredients we introduced in the recipe. The exotic coconut was sourced all the way from Indonesia and the chocolate came from the country with the expertise of chocolate, Belgium.

The ultra-generous quantity of butter completes this special recipe. A premium and tasteful experience.

*Unique ingredients with great flavours
usually come from great places.
Like Indonesia or Belgium.*

Ultra Premium

There is no substitute for gold.
It is the most luxurious
and timeless statement of all.

The Gold Tin in a Box

These Danesita Butter Cookies come in a fine and prestigious box. This is a special creation. It is made of the same material that we see in acts of love, in dreams and inspiring tales. The metallic gold and exquisite finish speaks all languages communicating luxury and quality. The choice is yours: Gold with or without the box.

Gree'tins

The Greetings Tin

Danesita Gree'tins Butter Cookies combine the perfect gift with the perfect reason to offer it. Either it's a once in a lifetime event, a delicious way to say "sorry about that" or simply to say "I Love You". These Butter Cookies take the tin box to a whole new level of communication as part of our daily lives, making it a must-have in the store shelves.

We have put some of the reasons to offer Butter Cookies on a list but feel free to create your own reason!

The Amazing Zoo
of the 3-Steps Animals

Eat a cookie,
twist the box and play!!

The 3-Steps Cookies Tins

This is a different kind of zoo. Danesita's "The Amazing Zoo of the 3-Steps Animals" Cookies present a sweet game where each tin body holds a specific part of an animal. An interactive set of heads, torsos and feet that allows multiple and creative combinations.

A lion with fins? A duck with arms? A monkey with wings? It's all possible at the "Amazing Zoo of the 3-Steps Animals".

Have a blast! These designs are sold as a mix and not individually allowing the collectability.

The Best Love Stories of All Time

The Love Stories

For eternal romantics, Danesita The Best Love Stories of All Time Butter Cookies encapsulate the undying love and intense passion of some of the most celebrated love tales ever: Romeo & Juliet, Anna Karenina, Jane Eyre. The illustration style reinforces this approach, making the tins collectable packaging as decoration. These designs are sold as a mix and not individually allowing the collectability.

Some love stories are eternal.
They live on in every sweet bite.

Say it with Chalk

ENOUGH TALK,
SAY IT WITH CHALK!

"write down your thoughts, save an inspirational message or propose to the love of your life!"

(eat a butter cookie, inspiration will follow)

SAY IT WITH CHALK!

The "Write" Butter Cookies

Danesita Say It With Chalk Butter Cookies are an innovative product that goes beyond a simple tin of cookies. The painting and finishing of the tin makes it customizable, by using a piece of chalk. Apart from being a handy cookie container it becomes a message holder to keep or to offer. Sweet ideas last forever!

Make it your own!

Play with it, hang it on the wall or leave your message. The sweet and personal power of chalk.

A Trip to Europe

The Cities Tin

What do Arc de Triumph, Tour Eiffel, Tower Bridge, Big Ben, Rijksmuseum and Van Gogh Museum have in common? They all represent beautiful European cities.
